Satellite radio is a wonderful service that I pay for and enjoy. It allows me access to unbiased news, information and uncensored entertainment. Please do not interfere with it's ability to provide local coverage of traffic and weather.

Please do not regulate it's ability to provide the content that its customers desire.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's and Sirius' ability to provide the kind of programming that I demand and deserve.
